WHO ARE WE ?

Pool | TECHNOLOGIE

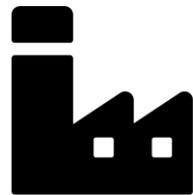

POOL TECHNOLOGIE

- French Company
- Specialist in swimming pool automatic water treatment

POOL TECHNOLOGIE, key figures

Founded
1992

Production plant
of 4000 m²

80 employees

Over 350,000
devices on the
market

5 Water treatments technologies

1

2

3

4

5

Salt chlorination

pH regulation

Combined salt / pH / ORP

Automatic Dosing

Copper/Silver Ionisation

PERFORMANCE AND USER EXPERIENCE

ELECTRONICS INNOVATION

1

2

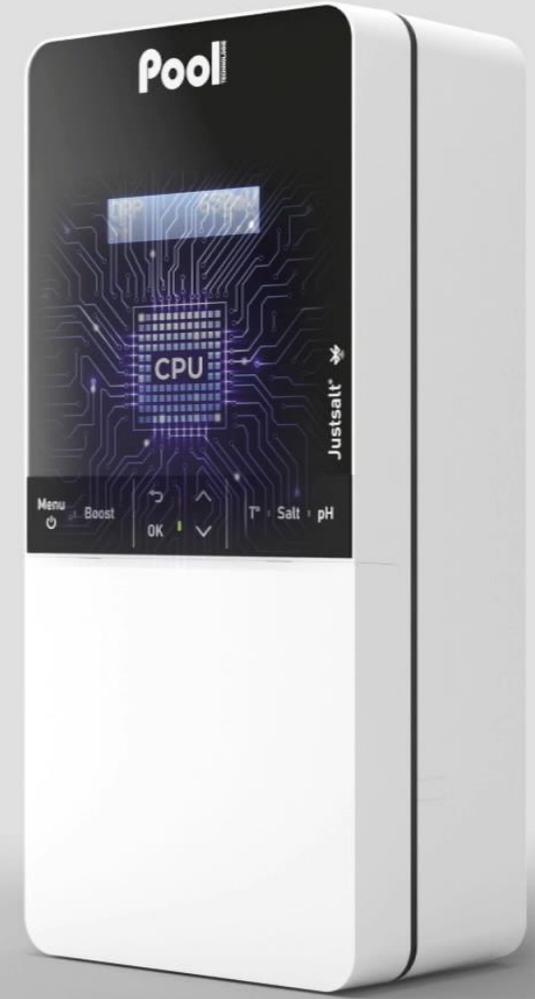

3

4

5

Circuit board equipped with **latest generation processor**

Boosted storage memory for **instant response**

ELECTRONICS INNOVATION

High performance power equipment

1

2

3

4

5

MECHANICAL INNOVATION

1

2

3

4

5

Improved sealing

Easy Plug, removable connectors, for **optimized installation and maintenance**

MECHANICAL INNOVATION

1

2

3

4

5

BOX OPENING
Easy Clip system, no tool
needed

MECHANICAL INNOVATION

1

2

3

4

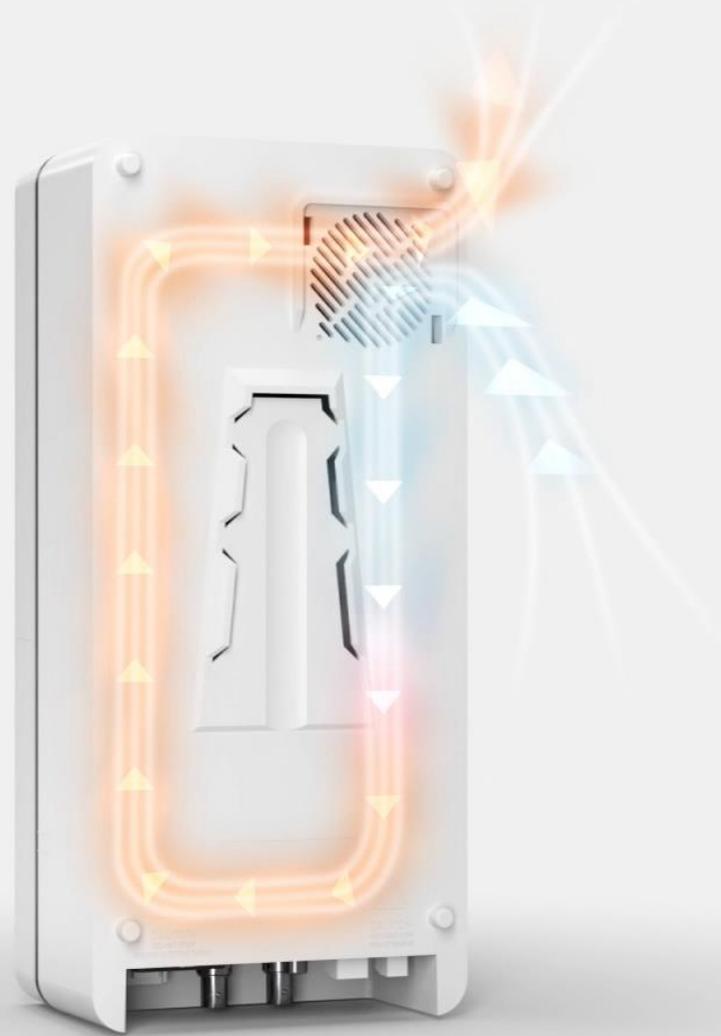

5

Silent pH dosing pump
integrated in the front of the
unit

MECHANICAL INNOVATIONS

Optimal heat dissipation
for reduced energy consumption

1

2

3

4

5

MECHANICAL INNOVATIONS

1

2

3

4

5

Easy Fix wall mount for easy installation

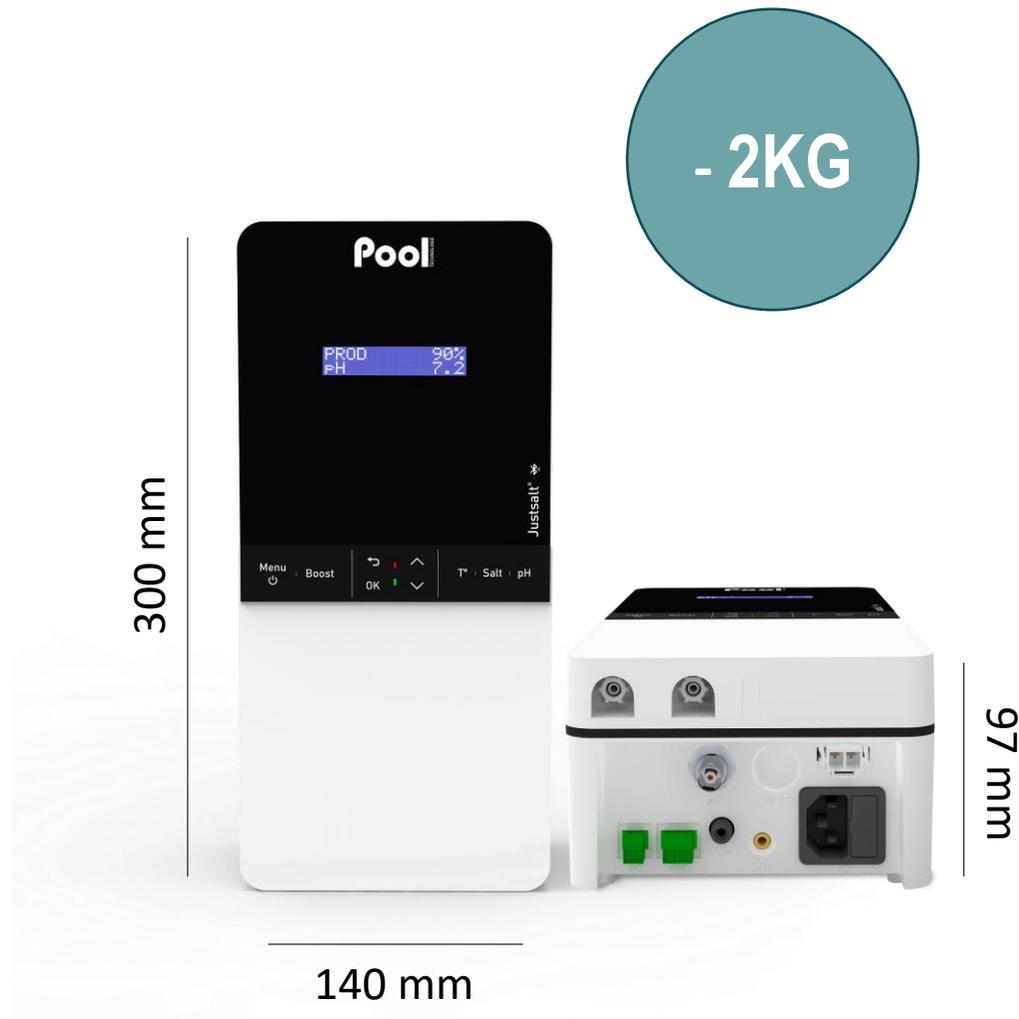

DESIGN AND ERGONOMICS

Compact, ideal for tight technical rooms

Lightweight, easy to install and handle

For existing pool or new build

DESIGN AND ERGONOMICS

1

2

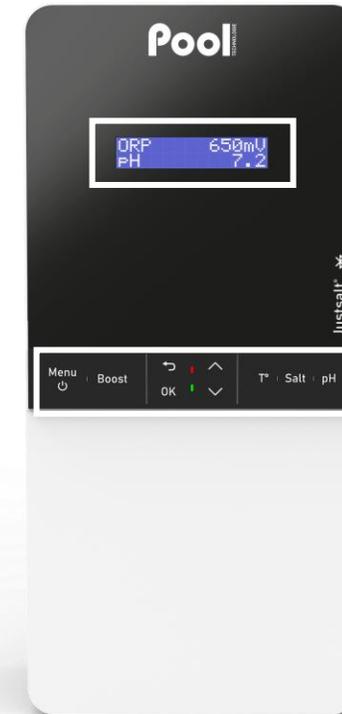

Backlit LCD display for **easy navigation**

Permanent display of ORP and pH values, warning messages

“Soft touch“ keyboard with quick access buttons for **easy operation**

Operation and warning LEDs

Checking of **salt level** and **water temperature**

CONNECTIVITY

 **BLUETOOTH** as standard

1
2
3 **Check / modification of parameters**

4 **Notifications**

5 **Software update**

Transmission of reports to professional

Natural Pool[®]

5

ZOOM : JUSTSALT® PRO CONNECT

4 FUNCTIONS

1

2

3

4

5

Salt water chlorination

pH regulation

ORP control

Connectivity

... MANY FEATURES

1

2

3

4

5

Self-cleaning cell by adjustable polarity inversion

Memory Superboost for a 125% superchlorination for up to 48 hours

Cell wear and tear indicator

... MANY FEATURES

1
2
3
4
5

Proportional pH regulation

Adjustable acid concentration

Probe calibration alarms

Events history

Automatic wintering and restarting

The ideal combination to control over-chlorination issues

1

Filtration

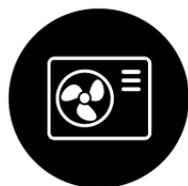

2

Robot cleaner

3

Heat pump

4

Lightning

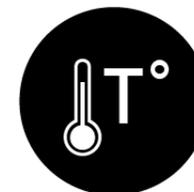

5

Cover sensor

Water temperature

LoRa™

Control of your pool at your **fingertips!**

Free application and **without subscription**

is also a dedicated space for **professionals**

**Remote management of a pool park
to optimize business**
